

Top Reasons Why Your Business Needs e-vergent?

Truly Diverse Internet

e-vergent will provide your business with a reliable, carrier grade network. Access is backed fully by our **service level agreements**.

Customized Business Solutions

We help your business achieve **100% network uptime**, giving you control over how you use your business internet. e-vergent will research your situation and tailor a communications package to meet your unique internet and voice challenges.

Structured Implementation Methodology

e-vergent ensures a smooth transition through a highly structured implementation process. From developing a plan to timely installation, **our seasoned pros will be accountable, accessible and communicate every detail**. We're not happy unless we're providing the best Quality of Experience (QoE) in the industry.

How We're Different From the Competition

We don't have "up to" speed packages, we don't have utilization caps and there's no bandwidth restrictions with our services. e-vergent also offers competitive **fixed rates** to ensure undeniable value for your business.

A Single Point of Contact

e-vergent will set you up with a friendly account manager who's responsible for one thing...**your complete satisfaction**. We make it easy by giving you **one name/one number** to guide you in technology, new services, upgrades and billing.

Strong, Stable, Experienced Provider

Since **2001** privately-owned e-vergent has impressed customers with our **fixed wireless, fiber and voice** products. We've adapted with the times and focused our efforts on providing businesses with the best of communication experiences.

Robust, Flexible Product Suite

e-vergent offers **scalable bandwidth** and stays on top of **new technology** to help you seamlessly adjust to an ever changing world. With your input, **we'll migrate you to more suitable product solutions** as your business environment changes.
